I called Jennifer earlier today. The original question was whether it is available online, and the answer that Josh will provide is that it is not posted online. There is not a page where this type of report would be posted, without creating one. None of the other GMAP reports are posted online.

Do you have any input on posting this report to the web?
It wasn't posted before because of a pretty esoteric debate about how it would be used. I have no problem posting it now so long as any appropriate process is followed.

I am working today. This long sting of emails is confusing. Can I get one email with the update, the

attachments and the link to the page that needs to be updated.

Allison is working as a press officer now. I am not sure who is checking the r5websupport email today, so I am cc'ing Karen Reshkin, the web section chief (although I think she's in a training now).

Please follow up with Karen to get it posted. Thanks.

Having now worked on Flint for a year, we post data and summaries online often. We usually run things through Allison Nowotarski to get things posted online. If ARD managers have any concerns, then let that be one thing, but otherwise, Allison can you advise?

Here's the signed final version which is somewhat more readable.

Thank you,

Jesse

I just talked to Jesse. I don't think the report is online (otherwise I could probably find it on google).

Jesse said he has a higher-quality copy of the report, though, and I will try to share that with OEPA if they need it to share with the public.

If anyone has other ideas on how to respond, please let me know.

Thanks.

Hi Josh,

OEPA is apparently checking in with several of us! I received a similar request from Rick Carleski in OEPA's central office and I sent an email to Michael Compher to see if he knew where this older GMAP report might have ended up after the website was updated. I don't know if it was ever uploaded to the website and if it was, whether it was moved to an archived webpage during the website transition. Marta and Jesse, do you have any insight?

Rebecca,

Please see the email below. Do you know if this report was ever posted online? I could not immediately find it.

Maybe we can post it online if that hasn't been done yet? I am cc'ing the web team.

Thanks.

EPA Region 5 Media Relations...

Joshua:

Hello, I work with Ohio EPA's Southeast District Office in Logan, Ohio.

I'm looking to see if a 2014 US EPA report is available online, so we may reference the report in a public "response to comment." I haven't been able to find a copy online myself.

I have attached here a poor quality copy of the report.

The report is titled: "Summary of Geospatial Measurements of Air Pollution (GMAP) – Hydrogen Sulfide and Methane for Apex and sunny

Farm Landfills.”

Back in 2014, US EPA Region 5’s Air Toxics and Assessment Branch performed geospatial measurements of air pollution (GMAP) around both Apex and Sunny Farm Landfills and eventually generated a report.

Please provide me with an online link to this report, so the link may be shared with the public.

Thanks,

Craig
